I. W. W. MEN HELD BY THE COUNTY AUTHORITIES

The twelve I. W. W. men confined in the county jail, charged with a misdemeanor, made urgent requests to Sheriff De Vine this morning for their release. They said that they could not see that they had committed any grave offense and they promised if released, that they would immediately leave the city. They were advised that a charge had been preferred against them and that they could be released only upon an order from the court.

Railroad officials at the sheriff's office this morning protested against releasing the men, as they were locked upon as a menace to the public good if at large. One officer said that if these men were turned loose in the city, it would be necessary for the guards at the depot to carry sawed-off shotguns and that in all likelihood some one would be killed before the men left the city.

The men show no disposition to make trouble and they say that they desire to move on to other quarters. The railroad people, however, do not take kindly to a company of men who take it upon themselves to ride on their cars free of charge and without the consent of the railroad officials. It is the opinion of the officials that the men should be punished for their offenses.

Although a complaint charging the 23 Industrial Workers now in the city and county jails with unlawfully riding upon the Oregon Short Line freight train has been issued by County Attorney David Jensen under the state law, the authorities are not certain that the men will be arraigned on that charge. In fact many of the city and county officials are debating whether it is not better to turn the men loose with orders to get out of the city limits at the earliest opportunity.

Chief of Police W. I. Norton and Sheriff Tom Devine are expecting other I. W. W.'s the conversation of those in jail leading the officers to expect that a convention is to be held in Salt Lake within the next few days.

MOVING PICTURES OF FASHION SHOW AND BIG DAM

The reel of films taken of the Fashion show features and scenes at the South Fork dam arrived from the east today and was declared to be highly satisfactory after a trial run had been made in the Isis theatre. The pictures will be shown at the Globe for three days, beginning tomorrow afternoon.

For clearness and general excellence, the reel will compare favorably with licensed films exhibited here. Faces show up distinctly in the crowds that were photographed. The picture of the big dynamite explosion at the dam site is interesting.

PROF. HANSON ON TEAM WORK

All but two members on the masculine side of the faculty were present at the 6:45 breakfast yesterday, tendered by Miss Cragin and her two-score young lady students in domestic science. The spacious table was garnished with autumn sprays surrounding a large plate of pansies in gorgeous bloom. But the picturesqueness of the scene, tame chiefly from the circle of mischievous-looking girls, whose faces, more charming than the pansies, were set in orioles of dainty caps and white gowns. The staid professors, in rather sober livery presented the necessary contrast. They were sandwiches in among their fair hostesses in a fashion, which might well have made their wives sit up and take notice, could they have caught a glimpse of the dazzling circle.

Some of the professors had accepted the invitation in verse, and so the girls hit upon the unique idea of converting all the replies into rhyme, and of incriminating them on all sorts of scraps of card and waste paper. During the progress of the banquet these fragments were exhibited and the verses read to the astonishment and chagrin of the guests. It proved a very merry occasion.

Last Monday, Professor Hanson discussed the "team-work" drawing his illustrations from the daily reports of national games. He instanced how one great football team, outclassed by their opponents as to individual players, yet held the rival team from scoring for three consecutive nights, by pure team work.

This quality might have given them the laurels, save that at the first break by the other side, some one lost heart, and so made a weak link in the team. Professor Hanson found many opportunities of bringing the lesson home to the daily life of the students.

Next Saturday at 8 p. m. there will be given the first number on the Academy lecture course. There are three artists in the company, Miss Grace Lewis, spoken of as a "marvelously talented reader," Miss Gretchen Scheidt, contralto and pianist, a girl of fine temperament and exceptional musical ability, and William Roller, assistant professor of violin in the American Conservatory of Music in Chicago.

A FOOTBALL SUBJECT

"Wall, young man, ready for college?"

TREVINO SAYS HE IS NOT GUILTY AS CHARGED

Manuel Trevino, charged with selling intoxicating liquor without a license when arraigned before Judge W. H. Reeder this morning entered a plea of not guilty. The witnesses for the city were Sergeant H. C. Peterson and Special Officer Joseph Harbertson.

Judge Reeder took the case under advisement.

Following the hearing of J. D. Leman, colored, and Nick Ungulho, both charged with disturbing the peace by fighting, the colored man was given a suspended sentence, while Ungulho was given a sentence of 15 days or \$15.

The arresting officer stated that when he took the two into custody last night, Leman had the other man down on the sidewalk. Leman said that he was returning home when he came upon a group quarrelling and was unwittingly drawn into the fray.

Jack Probst and William Duggan, two self-confessed drug fiends, charged with vagrancy, were given sentences of six months each. The arresting officers, Detectives Burke and Chambers, stated the men have been suspected of selling cocaine to minors. Probst has been living in one of the vacant cribs in Electric alley.

P. Porcel, charged with disturbing the peace in the Crescent rooming house, was found guilty and was sentenced to three days or \$3.

A. Peterson and Charles Miller, both charged with drunkenness, were given suspended sentences. A suspended sentence was also recorded in the case of Harry Kohn, charged with vagrancy. He confessed that he had begged money from an officer.

NEW HOSPITAL AT THE STATE SCHOOL

The new barn and hospital building at the state school for the deaf and blind are nearing completion. The barn will be ready for use within a few days and the hospital will be in use in about 30 days. The latter building should have been completed by the fifteenth of the present month.

Fortunately there has been no sickness among the students so far and the necessity of completing the hospital has not been felt. Last year the school experienced an epidemic of chickenpox and measles and it was necessary to use improvised quarters for the afflicted. This was done successfully and without evil results. The hospital building in use, the school will have perfect quarters for students who become ill.

NINE-YEAR-OLD PROBLEM TO SOLVE

New York, Oct. 22.—The nine-year-old question of negro representation in the House of Bishops was the commanding topic of legislation to be dealt with this afternoon by the general convention of the Protestant Episcopal church. The outlook was for a stormy meeting of an hour's duration in the lower house and for an unlimited debate in the House of Bishops.

Both houses must concur on legislation before the present status of negro communicants can be changed. At present the negro membership is under the direction of the white diocesan bishops. A minority of the deputies' committee on racial episcopacy would place this entire membership under the direction of a single colored bishop and give to this bishop a seat and a vote in the House of Bishops. A majority of the committee opposed the plan when it was proposed yesterday.

The incorrect handling of a southern bishop caused an error in the announcement of the election of the bishop of Spokane last Monday which was not discovered till today. The

announcement made then was that the office had been filled by the selection of the Rev. Dr. W. B. Capers of Columbia, Tenn. Examination today of the original draft of the resolution adopted showed that the new bishop of Spokane is the Rev. Dr. W. T. Capers, rector of the Church of the Holy Apostles of Philadelphia, a brother of W. B. Capers.

DIRECT CONFLICT ON OVER TARIFF LAW

Washington, Oct. 22.—"It looks like a head-on collision," said Attorney General McReynolds cryptically today when asked about the nature of his decision on the five per cent differential for American shipping, provided in the new tariff law.

Mr. McReynolds declined to explain what he meant, but his remark was interpreted as meaning he holds that the law and the treaties with a number of countries are in direct conflict. He could not say when the decision would be made public.

A MILITARY SEARCHLIGHT

The French army has as a part of its latest equipment the most powerful searchlight in Europe, designed particularly for military work. It is carried on an especially built military automobile and receives its current from a dynamo run by the car's engine. To make possible the use of the searchlight in places where the automobile cannot go, the huge projector is mounted on a four-wheel truck, with a portable skid and winches and a long cable to carry current from the dynamo. All its controlling devices are electrical so that the operator can manipulate it from his seat in the car.—Popular Mechanics Magazine.
